

Секция «Неклассические логики»

12 ноября, 213 ауд.

16.20 - 16.40 *G. Akishev, R. Goldblatt*, Monadic Bounded Algebras.

16.40 – 17.00 *A. S. Gerasimov*, A proof system with metavariables for infinite-valued first-order Lukasiewicz logic.

17.00 – 17.20 *Л. Л. Максимова, В. Ф. Юн*, Узнаваемость над минимальной логикой

17.30 – 17.50 *N. V. Shilov*, Alias calculus for a simple imperative language with decidable pointer arithmetic

17.50 – 18.10 *S. P. Odintsov*, On different approaches to defining a logic over a class of bilattices
