

Mal'tsev Meetings 2025

	Mon, November 10	Tue, November 11	Wed, November 12	Thu, November 13	Fri, November 14
8:00 8:50	Registration Opening of the conference	Yandex Telemost video meeting: https://telemost.yandex.ru/j/37979386422813			
9:00	J. F. Knight*, “Friedman-Stanley embedding of graphs in trees”	M.G. Peretyatkin, “Two levels of expressiveness of first-order logic”	A.G. Melnikov*, “Comparing presentations of compact spaces”	I.V. Arzhantsev, “Borel subgroups and their tangent algebras for automorphism groups of affine varieties”	W. Dziobiak*, “New Results for Algebraic Lattices”
10:00	K.Zh. Kudaibergenov*, “Extension of partial isomorphisms in finite tournaments”	A.L. Semenov, “Beginnings of definability theory”	K. M. Ng*, “Measuring relative effective content”	L.D. Beklemishev, “Well-partial orderings and strictly positive provability logics”	V.G. Puzarenko, I.Sh. Kalimullin, M.Kh. Faizrakhmanov, “Friedberg numberings on admissible sets”
10:50	Coffee break				
11:20	M.M. Arslanov, “Uniform constructions in computability theory”	S.A. Badaev, “On two problems of Ershov in theory of numberings”	I.P. Shestakov*, “On simple Jordan superalgebras”	D.E. Palchunov, A.V. Trofimov, “Model theory of enriched Boolean algebras”	A.I. Stukachev, “Generalized computability and model theory for linguistic structures”
12:20	A.R. Yeshkeev, “Model-theoretic properties of Jonsson theories and their classes of models”	I.Sh. Kalimullin, “Algorithmic transformations and universality of classes of algebraic structures”	M.G. Amaglobeli, A.G. Miasnikov, “Tensor completions of 2-nilpotent finitely generated torsion-free groups”	V.V. Rybakov, V.F. Yun, "The scientific legacy of Larisa Lvovna Maksimova. The work of L.L. Maksimova and her colleagues in the field of non-classical logic"	S.O. Speranski, “The computational aspects of the theory of weak probability spaces”
13:10	Lunch**				
15:00	I.A. Panin*, “On a hypothesis of Colliot-Thelene”	A.M. Staroletov, “On the eigenvalues of permutations in representations of the symmetric group”	M.V. Schwedefsky, “On spaces of continuous functions”	V.I. Trofimov*, “Spectral theory of locally finite graphs”	N.A. Bazhenov, “On degree structures for positive binary relations”
16:00	Sections: algebraic-logical methods in information technology (305), non-classical logics and universal algebra (CH), computability theory (220), group theory and applications (417), ring theory (344), model theory (115)		Anniversary meeting in honor of the 85th birthday of Yuri L. Ershov	Sections	Closing of the conference Sections***

* Remote talk

** Conference photo will be taken on Wednesday at 1:10 PM, before lunch

*** On Friday, sections start at 4:10 PM
