

24th annual international conference
Mathematical Optimization Theory and Operations Research
(MOTOR 2025)

July 7-11, 2025

Novosibirsk Scientific Center, Russia

<http://math.nsc.ru/conference/motor/2025/>

Annual international conference “Mathematical Optimization Theory and Operations Research” (MOTOR 2025) will be held on July 7-11, 2025, Novosibirsk Scientific Center, Russia.

The aim of the conference is to bring together a wide research community in the fields of mathematical programming and global optimization, discrete optimization, complexity theory and combinatorial algorithms, games and their applications in relevant practical problems of operations research, mathematical economy, machine learning, artificial intelligence, and data analysis.

Abstract and Paper Submission

In this 2025 year, we have a new opportunity to publish some papers in electronic journal from Russian White list of scientific journals: *Siberian Electronic Mathematical Reports* (SEMR) <http://semr.math.nsc.ru/>. This journal was founded in 2004 by the Sobolev Institute of Mathematics and is indexed in Mathematical Reviews, CiteFactor, Math-Net.Ru, eLibrary.ru, and Scopus (Q2).

The conference proceedings will be published by Springer-Verlag in the Lecture Notes in Computer Science (LNCS) and some selected papers in *Siberian Electronic Mathematical Reports* (SEMR). The LNCS volume will be published before the conference. The SEMR volume will be published after the conference in 2025.

Authors may submit at most two papers reporting on novel results that are not published or submitted simultaneously to any journal or another conference with refereed proceedings. Papers should be prepared in the Springer LNCS format, can have 12-15 pages, and submitted in PDF. Please, follow the official Springer authors' guidelines.

Authors can send abstracts without papers for oral presentations.

Submission of abstracts and papers for conference proceedings is made via EquinOCS system. Information about working with the EquinOCS system can be found at the conference website, section **Submission** <http://math.nsc.ru/conference/motor/2025/submis.html>

Key dates

- | | | |
|------------------------------|-------------|------|
| • Abstract submission | February 16 | 2025 |
| • Full paper submission | March 2 | 2025 |
| • Notification of acceptance | March 31 | 2025 |
| • Camera ready version LNCS | April 13 | 2025 |
| • Camera ready version SEMR | June 30 | 2025 |
| • Conference dates | July 7 - 11 | 2025 |

Yury Kochetov
