

**Program**  
**Conference "Integrable Systems and Their Applications"**

<b>Tuesday, August 6</b>	
10:00-10:05	<i>Opening of the conference</i>
10:05-10:50	<b>J. Zhou.</b> <i>Dualities and integrable systems.</i>
10:55-11:40	<b>N. Tyurin.</b> <i>Monotonic Lagrangian tori of non standard type in toric manifolds.</i>
<b>Coffee break (20 minutes)</b>	
12:00-12:45	<b>Sh. Guo.</b> <i>Mathematical approaches to the BCOV's holomorphic anomaly.</i>

<b>Wednesday, August 7</b>	
10:00-10:45	<b>Y. Zhang.</b> <i>Special Cubic Hodge Integrals and the Fractional Volterra Hierarchy.</i>
10:50-11:35	<b>A. Mironov.</b> <i>Baker-Akhiezer modules on algebraic varieties.</i>
<b>Coffee break (20 minutes)</b>	
11:55-12:40	<b>Zh. Zong.</b> <i>Remodeling Conjecture and its applications.</i>

<b>Thursday, August 8</b>	
10:00-10:45	<b>D. Zuo.</b> <i>Frobenius manifolds and a new class of Extended affine Weyl groups of A-type.</i>
10:50-11:35	<b>M. Pavlov.</b> <i>Integrability of new class of hyperbolic two-dimensional linear equations of second order.</i>
<b>Coffee break (20 minutes)</b>	
11:55-12:40	<b>N. Daurtseva.</b> <i>About cohomogeneity one almost complex structures on the <math>S^2 \times S^4</math>.</i>

<b>Friday, August 9</b>	
18:00-18:25	<b>G. Mauleshova.</b> <i>On one-point commuting difference operators of rank 1.</i>
18:30-18:55	<b>M. Yermentay.</b> <i>On minimal isotropic surfaces in <math>\mathbb{C}P^3</math>.</i>
<b>Social dinner (19:30)</b>	

<b>Saturday, August 10</b>	
10:00-10:45	<b>H. Ma.</b> <i>Ruh-Vilms theorems for minimal Lagrangian surfaces in <math>\mathbb{C}P^2</math>.</i>
10:50-11:35	<b>A. Zheglov.</b> <i>The theory of commuting differential operators: the state of art.</i>
<b>Coffee break (20 minutes)</b>	
11:55-12:40	<b>S. Agapov.</b> <i>On first integrals of Hamiltonian systems on the 2-torus.</i>
